Futury GmbH

Job-Titel:
Sustainable Innovation Project (3 – Month Program)

Job-Beschreibung
Futury offers you an excellent opportunity to enhance your skills and expand your network in a unique 3-month innovation project. "The Mission IV: WORK - Be Next!" is in the fourth round of our flagship project, "The Mission," aiming at bringing sustainability in every industry sector. This particular project’s goal is to find innovative solutions together with you and our corporate partners to shape the way we work, where we work, and with whom we work in a sustainable and future-oriented way! Together with Futury, the selected teams develop sustainable solutions for the participating companies of The Mission IV. Become part of the team and make a real impact on your sustainable and innovative ideas!

What anforderungsprofil

How does the project work?
- You work in a diverse team of innovators (4 talents per team).
- Our teams are formed by students and graduates from various disciplines and different educational, professional and cultural backgrounds.
- During the project, each team works independently on its own solution and is supported by workshops and coaching from Futury, Bain & Company and other partners.
- The selected 5 teams will work on the best solutions on how to shape the way, where and with whom we work in a sustainable and future-oriented way.
- You can either apply with or without an Idea – during the application process we will select the best 5 ideas and the most motivated and qualified candidates for the project.

What are your tasks?
- In three months you and your team develop your product from an initial idea to a market-ready prototype.
- **Phase 1:** Market research, market analysis and the first development of a prototype.
- **Phase 2:** Testing and obtaining feedback with first data, customers, or employees.
- **Phase 3:** Development of the business case and roadmap for piloting/implementation of the product.
- At three events, the Kick-Off, the Interim Pitch and the Final Pitch, your team will present the results to the corporate partners and receive feedback.

Who are we looking for?
- You are interested in innovation and have the ambition to start your own business.
- You bring expertise in one of the following areas: Business Psychology, Project Management, Software Development, Engineering, UX/UI Design, or similar areas.
- You are studying (Bachelor semester 5+ or Master) or have already completed your studies and can work full-time in Frankfurt from 26th October 2020 until 5th February 2021.
